* SaskTel reports on a fiscal calendar beginning April 1, 2020, ending March 31, 2021.

** SaskTel, TELUS and Vidéotron do not breakdown prepaid and postpaid subscribers.

Source: Company Reports

*** Total subscribers is not inclusive of 1,943,000 subscriptions reported by TELUS as M2M or connected devices in relation to the Internet of Things (IoT), and 2,177,761 subscriptions reported by Bell as mobile connected device subscribers, which include IoT units.

§ TELUS adjusted total subscriber connections to add approximately 31,000 security subscribers due to a business acquisition that impacted third quarter 2020.

† As of January 1, 2021, Bell is reporting two mobile subscriber categories: mobile phone units and 'connected device' units – which include previously undisclosed IoT units. Bell subscriber totals in 2020 have been restated for comparability.

†† Total Subscribers at the end of Q4 2020 was revised due to the addition of 31,000 security subscribers to TELUS' subscriber base, and the removal of connected devices (including IoT units) from Bell's mobile phone subscriber base, as noted above.

This list only includes Canadian providers who publish subscriber data and does not contain additional numbers for providers who do not publish such data, e.g. Eastlink or Tbaytel. Totals for Bell, Rogers, TELUS and Vidéotron include their respective flanker brands.
